Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

The Quality Assurance Monitor is on site in the afternoon to conduct a monitoring inspection. The ratio was respected during the inspection.

The following elements were verified:

- Child guidance
- The indoor play area and materials

The Quality Assurance Monitor also took the indoor play area measurements to update the information in our system.

The Quality Assurance Monitor had a discussion with the administrator regarding how to inform the parents of a potential illness in the facility or in the event of an outbreak declared by public health.

The children were observed pretend playing, speed skating like in the Olympics.
