ELCC Licensing Staff	**Position Title**	
Susan Dickeson	Quality Assurance Monitor	

Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Licensing staff arrived to conduct a monitoring visit. The children were just arriving in the gym, and one educator was taking attendance and organizing circle time while the second educator set up the room. All the children went to the washroom and washed their hands before returning for snack. and free play.

The room is divided in half with one side for gross motor activities such as balls, basketball hoop, hula hoops and active games and the other side is set up with learning stations and tables for snack and crafts. They have rugs set up in the learning invitations area such as the street/road map rug beside the cars and shelving for the kitchen area and its accessories. They have bean bags and books for comfortable reading and wooden benches around the room.

The parent board is set up with all the proper postings, and they will put up their renewed license as soon as they receive it. Staff checks were up to date, and the gym was clean and well organized. The children and their educators decided to play inside first because rain was forecast in 15 minutes and that didn't give them enough time for outside play. They will go out later if the weather permits.

Staff were very engaged with the children, they played games, talked about the children's day, and helped them with their snacks and anything else that they needed. They were kind, patient and interested in the children's thought. All child guidance was positive and pro-active.
