24(1) For the purposes of subsection 20(1) of the Act, the following records and documents shall be maintained on the premises of a licensed facility: (c) staff member records that include (iii) a description of the staff member's duties and responsibilities.	24(1)(c)(iii)	May 31, 2021	
Comments: New staff job description missing.			
24(1) For the purposes of subsection 20(1) of the Act, the following records and documents shall be maintained on the premises of a licensed facility: (c) staff member records that include (iv) a signed declaration confirming that the staff member has read and understood his or her obligations under the Act and this Regulation.	24(1)(c)(iv)	May 31, 2021	
Comments: New staff signed statement missing.			
28(3) The premises of a licensed facility shall comply with (a) lighting, ventilation and other general health standards under the Public Health Act.	28(3)(a)	May 26, 2021	
Comments: COVID-19 Guidelines regarding bubble groupings not being followed. It was observed during visit that two educators went to the school to pick up the children. However these children were from two bubble groupings, no social distancing happening and the children were still able to interact and engage with the other group. Discussed immediately with operator. Even if the children are wearing masks the mixing of bubble groups is not permitted. Two educators go to the school to pick up the children so these groups must be separated coming back to the facility.  COVID-19 Guidelines regarding hand-washing while using public playground not being followed. Prior to using equipment children must wash/sanitize their hands. This did not occur. Discussed with operator the guidelines. Children's hands were washed/sanitized after using the equipment.			
33(2) Stationary equipment in the outdoor play area shall be surrounded by a protective surfacing and installed according to the manufacturer's instructions.	33(2)	May 26, 2021	
Comments: Surfacing under stationary equipment that the program uses to be raked daily/or prior to the children accessing it. Discussed with operator			

### General Comments

During the monitoring inspection today children were observed in outside play both at the elementary school

General Comments

playground and in the area surrounding the facility. Discussed with the operator the large rock adjacent to the facility that the children play around and near. Discussed adding protective surfacing to this area so the children can utilize this area during outside play.

The children were also observed in inside play creating with pastels.

Discussed with operator surfacing under stationary equipment at the elementary school. Recommending having small metal rakes as the children can help with this process. Mulch is accumulating under the landing of the equipment, main body of slides, away from the swings and glider equipment. This mulch will need to be raked back under the fall zones so children can still access this area for their outside play. Must be done whenever this area is accessed by the school-age program as it is used by the school all day.

Discussions were had involving the COVID-19 Guidelines for Early Learning and Childcare. The operator was directed to refer to the document from December 16, 2020 for what is required.
