General Comments

Visit to the facility to complete annual inspection. Ratio was respected during the visit.

Two play structures have been identified as not having enough protective surfacing, discussed it with the educator and she confirms that they are not using the two structures.

When I arrived, a group of children were leaving to catch the late bus. Once they left, the others went to the washroom and washed up, had snack and then played in free play. The group was getting ready to go outside as I left.

Facility meets requirements under the Act and regulations, license will be recommended for another year.
