Order for Compliance	Regulation	Date to be corrected	Date corrected
39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Jul 15, 2021	Jul 15, 2021
Comments: All toxic products must be locked up and inaccessible to children.			

<p>General Comments</p> <p>Monitoring visit performed. Screening questionnaire clearly visible at the entrance and I signed in on the visitor log. Administrative records were reviewed - and attendance is being tracked for staff and children daily and fire drills are completed monthly for both preschool and school age classrooms. Staff information was reviewed during my visit. Enrollment is increasing for September so a new staff is being hired. Children involved in a variety of age appropriate activities. Many programming stations are available for children to choose. A few children were involved in dramatic play - playing house, shopping, preparing, cooking, pretend eating, looking after and feeding the baby. Other children were listening to a story and another child enjoyed a variety of sensory materials - sand and shells, different shaped pasta etc. Please ensure shared materials are cleaned and disinfected as outlined in the guidelines for the prevention and control of communicable diseases and ensure children wash hand before playing with the materials. Please discard as required. Educators were observed engaged, reading and interacting with the children. School age children were outside playing basket ball and on the climbing structure. This week is all about exercise type activities. Wonderful circle time observed during my visit. Children were observed eating lunch and going down for a nap.</p>
