Comments: During the follow-up inspection, the inspector observed that an educator left the facility to pick up a group of children consequently leaving a group of 10 children unsupervised. The inspector informed the administrator that the educator must bring the children they are supervising with them when they must pick up the other children to ensure that the child-to-staff ratio is maintained at all times during the operating hours of the facility. During the inspection, the educator returned to the facility and the ratio is respected. Deficiency is now compliant.			

General Comments
During the follow-up inspection, the inspector observed indoor free play and snack time.
The inspector had a discussion with the administrator regarding the importance of educators knowing the exact number of children they have in the groups at all times.
