Order for Compliance	Regulation	Date to be corrected	Date corrected
12(3) An operator of a licensed facility shall ensure that a criminal record check or a vulnerable sector check, as the case may, and a check with the Department of Social Development is conducted on each staff member and associated person at least every five years.	12(3)	Mar 19, 2024	
Comments: In one staff member record the check with Social Development is expired. The Quality Assurance Monitor reminded the administrator that each staff member needs a check with social development at least every 5 years.			
9(1) The child-to-staff ratio is one educator for each of the following groups of children of the same age receiving services at a full-time or part-time early learning and childcare centre: (a) three infants or fewer; (b) five children or fewer who are two years of age; (c) eight children or fewer who are three years of age; (d) ten children or fewer who are four years of age or older, but who are not yet attending school; and (e) 15 school-age children or fewer.	9(1)	Mar 12, 2024	Mar 12, 2024
Comments: While on site at more than one occasion, the educators were not able to confirm to the Quality Assurance Monitor how many children was present. The Quality Assurance Monitor would ask the educator when a bus run would get to the daycare how many children were present at that moment. Each time the educator would tell a number to the Quality Assurance Monitor and when the Quality Assurance Monitor would count the children, the numbers would not match. Each time the Quality Assurance Monitor would count more children than the number that the educator presented to the Quality Assurance Monitor. The Quality Assurance Monitor explained to the educator that it's very concerning that educators are not sure how many children the educators are responsible for. The Quality Assurance Monitor also noticed that all of the children are on one attendance sheet and are not divided by groups, the Quality Assurance Monitor told the educators that if children were divided by the group on the attendance sheet that it would be a lot easier for educators to keep track of how many kids are in the group. The educator explained to the Quality Assurance Monitor that children are all on the same attendance sheet because children are not in fixed groups, the groups all depend on the gym schedule. The Quality Assurance Monitor had a discussion with the administrator and explained that a plan must be put in place to ensure that educators are aware of how many children are present in the group to ensure a proper supervision of children. Deficiency is now compliant			

General Comments
Monitoring inspection was conducted.

General Comments
The Quality Assurance Monitor verified: -Indoor play area materials and equipment While on site the Quality Assurance Monitor was able to observe indoor free play and children eating a snack. The Quality Assurance Monitor was also able to observe children participate in activities in the gym. Two different games were being played in the gym, one of them being king's court and the other was a form of baseball game. The Quality Assurance Monitor also observed positive interaction between educators and children.
