Comments: Deficiency is now compliant			

General Comments
<p>During today's follow up visit, Licensing staff observed the soap dispenser, and the paper towel dispenser were clean on the outside. Please treat this as a kind reminder to staff this involves daily cleaning throughout the day. Now that we are getting into cold and flu season it is important to continue cleaning and sanitizing all surfaces. Attendance was being recorded but when children are being moved to another classroom, please ensure they are signed out on one record and signed in on another record.</p> <p>An educator asked about napping older preschool age children. If some children do not nap and parents have put this in writing, and when they move to another room, please ensure you are recording attendance and signing them out on one record and signing them in on another record. Most preschool age children who attend a full day benefit from a period of rest and this can take the form of a quiet time or a change of pace between activities. Children should never be forced to sleep.</p> <p>If children who nap wake up, they should be permitted to get up and move around the room and enjoy quiet activities while their friends continue to nap. This is the normal practice at this facility that licensing staff has observed in the past.</p>
