<p>General Comments</p> <p>On the morning of my monitoring visit, I observed the children in both indoor and outdoor play.</p> <p>Upon my arrival, children were coloring and playing with baby dolls. The children's favorite story is "The Gruffalo" and one child did a re-tell of the story. The other children liked saying their favorite parts of the story as well.</p> <p>The operator used singing and laughter to redirect children and this also allowed for smooth transitions when getting dressed for outdoors and waiting for their lunches to be served.</p> <p>I also observed positive child guidance techniques when we were outside. When a child started to get upset, the operator got down in the snow and made snow angels with them. The operator was dressed appropriately so she could be fully engaged with the children in the snow. Children also had ample materials to play with outdoors- I saw children playing with buckets, shovels, trucks and balls.</p> <p>Administrative records were checked and Emergency Evacuation and Fire Drill Record, 15 Minute Nap Checks, Monthly Cleaning, First Aid Supply List, Outdoor Play Equipment Maintenance Inspection were all complete. I also verified Attendance and Daily Information Sheets and they are up to date.</p>
