<p>General Comments</p> <p>On the day of the monitoring visit, the operator was preparing to go outside with the children. The transition to prepare for outdoor play was smooth. Diapers were changed according to proper procedure, sunscreen was applied and children were given the time and opportunity to put on their own shoes.</p> <p>The operator had her full first aid kit and completed attendance in her outdoor bag. In the outdoor space there is ample natural shade from large trees, the backyard is fenced and there are a large variety of materials for the children to play with. Children were playing with playdough at the picnic table, mark-making on the white board, splashing in the water table, finding mud and puddles and kicking the balls.</p> <p>Children were treated with lots of nurturing care and patience. The operator sat with the children and engaged in their imaginative play.</p> <p>Indoor postings were checked and all required information is displayed on the parent board.</p>
