### General Comments

Some of the children were getting ready for outdoors at time of visit. Other children, were happily playing in the classrooms and engaged in story time and free play. Children were offered choices and educators took interest in what the children were doing. Educators were observed acknowledging children's feelings and prompting appropriate responses to other children. Educators consistently engaged with the children in a positive manner.

The children's learning is documented and visible throughout the centre. Examples of this include learning stories, children's artwork, pictures, portfolios, and a community page for parents. The learning is child lead and based on the New Brunswick Curriculum Framework.

The filing system is meticulous and all information was easily verified by licensing staff, Managing illness is being documented properly in the facility and Covid-19 guidelines are being followed.

Licensing Staff can recommend facility for licensing pending a current Health inspection.
