39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Feb 27, 2023	Feb 27, 2023
Comments: Deficiency is now compliant Observed toxic products (Lysol cleaner, Lysol toilet bowl cleaner, Comet, etc) in Senior Room that were only locked using a child lock. Cabinet lock is no longer working. Operator moved all toxics to a different room where they were able to be locked under lock and key at time of inspection.			

General Comments
<p>All Educators were observed interacting and playing with the children at time of inspection. Observed positive child guidance practices such as offering choices and assisting children in decision-making and using gentle reminders when needed.</p> <p>Educators were able to provide documentation of proof of daily planning at time of inspection. Documentation is evident throughout the facility as children's artwork/creations were observed displayed on walls in each of the classrooms.</p> <p>During naptime, children who do not normally sleep were observed having free choice of quiet toys/activities to do while their friend's rest.</p> <p>All indoor environments are set up in a way that promotes independence by arranging all play material on low shelves so that children can have the choice to pick their own toys.</p> <p>All administrative records that were observed today were all well organized and in compliance with licensing regulations.</p> <p>Unable to verify shade and different types of play surfaces due to snow being on the ground. Quality Assurance Monitor will follow up via monitoring inspection once snow has melted to ensure compliance.</p> <p>Recommended for renewal.</p>
