### General Comments

Licensing staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, all classrooms were having quiet time. The infants, 2-year-old and 3-year-old classes were napping, while the 4/5 class and school age children were engaged in a variety of activities. Today was a snow day, so school aged children were in attendance for a full day.

Throughout the afternoon the children engaged in a variety of activities. Educators were observed sitting and reading with children, playing active games, drawing and painting. Downstairs in the 4/5-year-old room, a gardening activity was set up at one table along with a book "Plant a Seed". A large sensory bin with cups, brown pieces of paper, fake flowers, gardening tools and gloves were available for the children to use. At another table a small group of children worked together using wooden discs, blocks, wicker baskets to build a bug house. Hand washing was observed before the children ate afternoon snack.

Alot of positive changes have been made since the last Monitoring visit. The rooms are bright, organized and welcoming. Large chalkboards with picture frames have been added to display children's artwork and quotes. Learning stories, family pictures and artwork was observed throughout the classrooms and hallways. Only positive child guidance was observed during today's visit. Educators spoke kindly to the children, were seen laughing and playing with the children and offering comfort when needed. Child profiles were reviewed today. Files were organized and contained all required documents.
