General Comments

Completed a follow up visit for the renewal inspection on January 16, 2019. Children were engaged in play during my inspection. Extreme allergy management plan for a child with life threatening allergy has been removed from the wall until consent is obtained to post this information. In the mean time, this document will be kept with the Epi-pen for this child, with another copy located within the child's file.

Evacuation procedure description still needs to be posted at one of the main exits. This had not been completed as of January 16, 2019.
