### General Comments

A renewal inspection occurred today. The children were observed during morning free play, morning snack, circle time, outside play, lunch and quiet time.

Proper handwashing was also observed occurring several times throughout the day.

Discussed having defined interest centres with a wide variety of loose parts and materials available for the children in the 4-year-old preschool room. Discussed the use of the computer and video screen for songs, transition time, morning circle etc.

Recommending those Educators who have not completed the mandatory 90 Hour Introduction to Early Childhood Education read the New Brunswick Curriculum Framework-English and support documents to help with room arrangement, purposeful planning, and documentation.

A recommendation for Curriculum support will be made by Inspector for facility.
