General Comments
<p>A variety of materials available and accessible and children observed engaged in a variety of play. Lovely interactions observed as educators supported children's play and learning.</p> <p>Documentation of children's learning posted throughout the indoor environment as well as webbing, and projects. Tthe robin project really highlighted what was observed from the time the nest was discovered to baby birds leaving the nest. The project with the new baby dolls that were purchased was a great way to introduce new materials and value a connection between the centre and home for the children and families.</p> <p>As discussed, please replace current lock on toxic and medication cupboard with a lock and key or CSA-approved child safety lock (Operator manual page 72).</p>
