<p>General Comments</p> <p>Monitoring inspection completed today. When QA Monitor arrived, children were in the outdoor play environment. During nice days, the majority of the day is spent outside. The outdoor play environment is purposefully planned with interest centres and a variety of materials. Children were painting and drawing, engaged in dramatic play in the mud kitchen, playing with the water wall and water table, sand play and the slide. Educators engaged with children in play, engaged in authentic and meaningful back and forth conversation, and listen carefully to children as they speak.</p> <p>As discussed, children who have turned 2 years and are waiting to move into the preschool room, continue to be counted as .333 while they occupy an infant space.</p> <p>Student is able to volunteer at the centre, but cannot be counted in ratio or left alone with children.</p> <p>New staff file checked and complete.</p>
