General Comments

Visit to facility today to complete outdoor park area inspection. The facility is presently on hold for the summer; therefore, no children were present. Discussed inspection details over the phone with director/operator. Due to being located in a school, the children use the school's outdoor park as their designated play area. Recommending that the facility no longer use the climbing wall, the swings located on the grass and the blue swings due to not having enough protective surfacing around the structures. Other structures located in the park meet regulations.
