Name of Early Learning and Childcare Licensing Staff Vanessa Giberson		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

<p>General Comments</p> <p>Visit to the facility today to complete the inspection of the outdoor play area. Ratio was respected during the visit. Infants and preschool children were napping during the visit, school age children were playing indoors. Discussed with director proper spacing between cots during nap time. Discussed with the director the following information regarding the outdoor play area:</p> <ul style="list-style-type: none"> -The brown play structure with the slide / monkey bars does not have enough protective surfacing. The structure is not anchored to the ground and is not sturdy. Recommended this structure not be used until it is repaired and is installed according to the manufacturer's instructions. Director discussed the possibility of removing the structure. -Recommended that director review little tikes manufacturer's instruction manual to ensure they are meeting requirements for protective surfacing and appropriate spacing around structure. -Discussed with the director play materials and equipment in the outdoor space. Recommended that more materials be added/ be accessible to children in play zones in order to reflect the curriculum. -Discussed with the director the amount of shade in the preschool/school age play area. At this time, according to measurements of the park, the facility meets requirements for shade in the morning but is a few meters short of meeting the 10% minimum requirements in the afternoon. A discussion with the director and operator will be had on shade accessibility and the impact it has on the children. The possibility of an exemption request will be discussed with the director and operator.
