Comments:			

<p>General Comments</p> <ul style="list-style-type: none"> -Visit to the learning center for an unexpected monitoring inspection -Ratio was respected during the visit -Children's guidance is done in a respectful and positive way -Two new staff are registered for their 90 hours, it is supposed to start in January 2024 -With each staff we went through the inspection check list, and we made the connection with the curriculum. We have established together that some item of the list needs to be increased with each room such has, science and literacy. Strategies were given and a plan was done to see more of the two items mentioned, a follow-up will be done on the next visit. -Indoor environment provides for children a space that is safe and clean. The material is varied and in sufficient quantity for all children present, easily accessible on low, open shelves. -Toxic products, and cleaning supplies are locked and inaccessible to children -No hot beverage was found in the children's indoor and outdoor play area -A first-aid kit and a phone are always accessible on site and on outings. <p>Observations: When arriving at the center children were having lunch, the younger children were getting ready for a nap, while the older kids went into quiet play.</p>
