General Comments
<p>Monitoring visit performed. Staff are following covid guidelines and are masking. No compliances to address at this time</p> <p>Administrative records were reviewed (fire drills, outdoor checklist, attendance) and all in order and staff vaccination status was also verified. New staff info was also reviewed. All Children were observed going down for a quiet time, and staff took cues from children when they were ready to get up and move onto afternoon activities.</p> <p>Appropriate child guidance was observed. Staff spoke to the children kindly and gave them appropriate direction and reminders about how to play with their friends etc.</p> <p>I also observed that educators post daily programming on the white board</p> <p>As per discussed in the other facility - it is recommended that medication forms be updated and completed to the current year and ask parents to provide instructions and to sign the forms and after medication is administered.</p> <p>Programming is documented and made to feel important. Some children are very interested in cars and construction.</p>
