Name of Early Learning and Childcare Licensing Staff Joanne Voye Page		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
<p>Monitoring visit performed. No compliances to address during this visit. Covid log is being tracked and licensing inspector verified vaccination status and all in order. Administrative records were also reviewed and fire drills are being performed and recorded (good timing) and outdoor checklist is recorded monthly. During my visit today, the owner was on site and as per discussed, eventhough educators have been recording their arrivals and departures on a separate attendance record, it was directed by PH that group attendance records should include the name of the staff in the individual classrooms and any other staff entering rooms to cover lunches and staff breaks should also be signing in. They will commence this practice going forward. Children were observed getting dressed and going outdoors. Please ensure all children have opportunities to participate in outdoor play in the morning and afternoon. One group were not observed going outside this AM. Children may not feel like going, but it is important to encourage and make it fun to get ready to play outside. Snack today was yogurt and aeroroot crackers. The operator has decided to stop serving snacks in January. All parents have been made aware of this change in service. Please submit a change in service application, so I can update your record. Thank you. During my visit, children were observed playing and building with magnetic blocks, dressing up as super heros, making things with play doh, playing house, and getting dressed for outdoor play. Educators were engaged, assisting in children's play, reading and singing and provided lots of transition time in between activities. They were observed helping children with toileting and washing hands at prescribed times. Children were observed happy and content and singing while they played.</p>
