Address Unit 220 281 Restigouche Road Oromocto NB E2V 2H2			
Name of Early Learning and Childcare Licensing Staff Lindsay Lewis		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

### General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, the 2-year-old class was observed using colorful dabbers as they created a popsicle craft. The Educator mentioned they have been exploring different foods this week. A learning story and pictures of the children engaged in a watermelon craft, titled "Taste it, Craft it", from early in the week was observed. Due to low numbers, the 3 and 4-year-old classes were together. Hand washing was observed before the children sat together for morning snack.

After morning snack, sunscreen was applied, and water bottles were brought as the groups transitioned to the outdoor play area. The 2-year-old class were the first group to arrive outside. They were observed enjoying a popsicle before the other group joined them on the playground. The Educators were heard calling the children for water breaks several times while playing outside. Some children were observed playing in the large sandbox area, using shovels and trucks while others were seen running, using the climber and jumping off wooden stumps. The Educators were well spread out on the playground to ensure proper supervision of all areas.

The transition back inside the facility was smooth. The Educators encouraged the children to choose a color on the walking rope to hold onto as they crossed the parking lot. Once inside, the children asked to have a dance party with music and a disco ball. One Educator stayed in the room dancing and singing with the children while the other Educator was observed changing diapers and washing hands for lunch.

The facility is clean, organized and bright. They had extra staff on site to help with transition periods, heating lunches and extra cleaning. Child profiles were reviewed during today's Monitoring Inspection. The files were easily accessible and contained all required documents. Only positive child guidance was observed. Throughout the morning, the Educators were observed modelling and positive redirection with the children. "Lets climb over here on the climber. We can jump off the wooden stumps! Can you show me how high you can jump?" A conversation was had with the Operator about adding larger holes in the tires in the outdoor play area to ensure proper drainage of water.
