General Comments
<p>A renewal inspection was conducted today. The children were observed in inside/outside play, lunch nap/quiet time.</p> <p>In each room the learning environments have a wide variety of materials for the children to interact and engage with. Discussed with administrators/educators having materials available and accessible for the younger children (2 year olds), Having art materials in clear, labelled boxes with covers on them make them available to the children but accessible with direct supervision where there are small pieces.</p> <p>Educators were observed very engaged with the children in their learning and care. They were also observed having respectful and meaningful conversations with the children and comforting the child(ren) who may needed to be comforted.</p>
