General Comments

Monitoring Inspection:

Children and educators observed engaged in a variety of activities this morning including fine motor activities, stories with props, and mark making. Each group went on a morning walk in the neighbourhood. Educators were observed using positive guidance techniques during transition times and encouraging children to put their winter clothing on independently.

Infants were observed during transition to outdoor play and during lunch time. Educators were observed assisting the infants with their meals and encouraging them to feed themselves independently.

The indoor play environments were observed to be set-up with a variety of materials, on low open shelving. Each environment appears to be well-maintained. Materials have been added to both sides of the Threes Room to ensure all children have materials accessible to them.

Purposeful planning is evident through documentation, invitations and materials added to the environments that support the children's current interests (food, winter, dumping, stacking, throwing, nature, deer and vehicles). An ongoing project is displayed in the Twos Room - a map of the neighbourhood that they add things they find on their walks to.

Handwashing routines were observed during washroom routines, after outdoor play and before mealtimes. Monthly fire drills are documented.

Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection. Infant Daily Information sheets were observed to be completed throughout the day.

New staff file (1) review was completed, all required documents are in place.
