<p>General Comments</p> <p>Children engaged in play both indoors and outdoors. Invitations set up for the children when they arrive from school. Many positive interactions observed between educators and children today during visit.</p> <p>Discussed with educators keeping documentation of planning and interests of the children. This can include photos, lists of materials that are added to the environment, notes about children's interests and activities that are introduced.</p> <p>Recommend allowing children to play with ice and bigger rocks during outdoor play. This allows the children to explore, create and take healthy risks during play. Educators can encourage children to use these materials safely.</p>
