General Comments
<p>Monitoring inspection -- COVID-19 Recovery Phase. All required documents are being completed daily and each room has a designated cleaning schedule. The grouping of children is working well and children and staff are happy to be back! The room is divided in half to allow for 2 groupings of school age children.</p> <p>The screening process is very well established for morning drop offs as well as the process for pick ups.</p> <p>The facility is currently not serving meals and snacks.</p> <p>Ensure that the designated staff person who is covering breaks is added to the group log along with documented time in and out.</p> <p>Discussed creating a visitor log (for essential visitors) to keep track of visitor name, purpose of visit, screening/temperature completed, time in and time out.</p>
