<p>Comments: During inspection it was observed that the children who arrive on the late bus were not separating into two bubble groups until after they were screened. Discussed with educators and administrator that the children who are part of bubble group 1 (dust busters) are to remain with their group when they arrive and are not to mix with group 2 (cookie crumblers). Discussed with educator in Group 1, that if they are outside when the children arrive on the later bus to have hand sanitizer for these children when they arrive and then when they come back inside for the children to wash their hands then.</p> <p>Screening does not need to occur as it is assumed that the parents are doing this prior to the children leaving home in the morning. Discussed with administrator and the facility is continuing with screening each day for peace of mind.</p> <p>Children in older school-age group were observed not washing hands after outside play.</p> <p>Hand Washing Staff and children must wash their hands as often as necessary but always in these situations:</p> <ul style="list-style-type: none"> ¿ upon arrival at the centre ¿ before handling food, eating or feeding ¿ after using the toilet ¿ after diaper changing ¿ after handling animals ¿ after outside play ¿ after cleaning up after a sick child ¿ after handling items soiled with blood or bodily fluids ¿ before and after giving/taking medication 			

General Comments
<p>A renewal inspection occurred today.</p> <p>Children in both groups were observed in both inside and outside play.</p> <p>Discussed with educators in the groups purposefully planning and documenting/having a written plan.</p> <p>Having a written plan ensures there are a variety of opportunities provided for learning and exploration. This may be demonstrated in many ways, such as:</p> <ul style="list-style-type: none"> • weekly program • daily activity sheets <p>A variety of materials are available for the children to interact and engage with and the children appeared happy and content in their environments and with their educators. The educators were observed engaged in conversation and activities with the children and having respectful and meaningful conversations.</p>
