General Comments The Quality Assurance Monitor is on site in the morning to conduct a monitoring inspection. The ratio was respected during the visit. The following elements were verified: - Daily activities - Daily routine - Indoor play area and equipment - Washroom - Storage space - Personal belongings While verifying a new staff member's file, the Quality Assurance Monitor observed that the First Aid and Cardiopulmonary Resuscitation (CPR) certificate was issued by a provider that is not approved by WorkSafeNB. The staff member must obtain valid First Aid and CPR certification from a WorkSafeNB-approved training provider. The Quality Assurance Monitor informed the administrator that the staff member must not be left alone with children until the updated certification has been obtained. The Quality Assurance Monitor observed a small group of children present at the facility due to a professional development day at school. The children were observed playing in the outdoor play area before transitioning indoors to eat their lunch (lunch boxes). Positive interactions were observed between the educators and the children throughout the visit.
