General Comments

Indoor environments very clean and tidy. Interest centres are set up in such a way as to invite children's engagement with a variety of materials. Current programming posted and children's art work neatly displayed throughout the room.

Educators have adapted well to new requirements under COVID-19 guidelines with increased cleaning and ensuring everyone has been screened before arrival.

Children observed actively engaged in activities in the indoor environment during inspection before preparing for snack and outdoor play.

Educators speak very kindly and respectfully to children.

Hand washing routine observed multiple times as children arrived, and moved between activities. The addition of the sink in the hallway last year has proven to make a big difference.

In the outdoor environment, additional surfacing has been added around the play structure. Program coordinator reports a work order has been submitted for the outdoor walkway and until complete children and educators have been entering the outdoor play area from behind the play structure.
