General Comments

A renewal inspection was conducted today.
The children were observed engaged in activities outside on the Dreamland playground for the majority of the inspection.
When inside the children were observed engaged in creating an art project within their group with their educators.
Educators indicated that the playground will be undergoing a renovation during the summer and they will not have access to it but have a plan in place to keep the children engaged in outside activities during the renovation.
Discussed with educators medications and to ensure to change the expiration date on items such as Benadryl, EpiPen's and Puffers. If these have expired or are nearing expiration to speak with the parent/guardian to have new ones at the children facility for their child.
Educators were observed engaged with the children in both inside and outside play: Pickle ball, climbing on playground, supervising snack. Lots of laughter was heard both inside and outside from the children.
The educators were observed having respectful and responsive conversations with the children and the children appeared happy and content in their school-age environment and with their educators.
