General Comments
<p>Children in group 1 were observed engaged in play together on the outdoor play structure before heading inside to their room. Inside, a variety of materials were set up in the environment and on tables. Children enjoyed magnet blocks, dramatic play, and games. A group of children were busy at the art table. two children were observed collaborating together on drawing dresses. One child would draw the dress, and another child would create the decorations.</p> <p>Children in group 2 were also provided with opportunities to choose from a variety of materials neatly displayed to invite their engagement. New cooking materials in the dramatic play area were especially popular.</p> <p>Children in both groups were eager to share with me how the leprechaun had visited their school classrooms and coat rooms and the mess that was made!</p> <p>Educators were observed to be very attentive and engaged with the children in their groups.</p>
