General Comments
<p>Monitoring inspection completed today at the alternate location (Church of the Good Sheppard). The gym is being used daily for indoor play, the other room is only used when the group exceeds maximum group size for 2 educators and on inclement weather days.</p> <p>The indoor play area is set up with interest centres and a variety of easily accessible materials for the children. Children were observed to move freely between centres and played cooperatively with their peers.</p> <p>Educators were observed to engage with children in conversation as they had snack and prepared for outdoor play. Transition from indoor to outdoors was observed to go smoothly.</p> <p>Handwashing observed.</p> <p>As discussed with onsite administrator, one area of the playground is not in use due to depleted surfacing and disrepair to some areas of the play structure. The other play structure is used and surfacing raked to ensure the surfacing meets licensing regulations.</p> <p>One staff file checked during inspection- complete.</p>
