### General Comments

- Visit at the facility for a regular monitoring inspection.
- Operator had prior engagement, center was closed for the day. No ratio was taken
- Looked at the outdoor space with the operator. Playground offers more than one surface to permit different types of play. It is maintained safe and free of hazards; stationary equipment is surrounded by protective surfacing of appropriate depth and material varied and in sufficient quantity for all children present.
- Had a discussion with operator about designation, a follow-up will be made this summer.
- The center will be put on hold for July and August.
