General Comments
<p>Upon arrival, I was screened, signed in and my temperature was taken. There is COVID signage on the entrance and the required postings for the licencing regulations are also displayed. I observed frequent handwashing by the children and the educator. The center is clean and bright, and the program appears to be well planned and active and children's work is displayed on the wall. I observed lot of positive child guidance during my visit, such as gentle reminders, encouragement, setting clear boundaries, and time reminders. The educator appeared to be responsive to the children's needs, and she listened intently to what the children were telling her. The program appeared to run smoothly. I recommend for licencing.</p> <p>While the cleaners are currently locked, they must now be locked with a lock and key, so this must be changed.</p>
