General Comments

The environment in the part-time preschool was set up with learning centers to engage the children. There was a huge reading and cozy corner, a puzzle centre, a dramatic play area, manipulatives and loose parts, blocks, art and a sensory bin to name a few.

The Assistant Director advised me that the full-time preschool room would not be operating until the Fall. This room is currently not set up for those licensed spaces but will be set up when the program operates again. As discussed, a change in service application must be filled out and forwarded to your quality assurance monitor to change the age groupings that you are going to offer. Please include any hours of operation changes as well.

Programming is evident in the facility. The assistant director advised me that they are journaling ideas that the children are interested in and creating a learning environment based off of those interests. A portfolio has also been created for each child that contains their art work, learning stories, pictures, letters, and pieces of the children's personal documentation that they have each created.

All documentation for licensing was complete and organized. I am able to recommend facility for licensing.
