General Comments

Children were having snack upon arrival. After snack the children were able to engage in some free play activities, such as playing with dolls, building with lego, grocery store shopping and laying on the new couch in the cozy area. A couple of the children were also creating stories with the new story rocks that the facility just purchased.

After free play time some of the children participated in a rainbow craft. There were a variety of materials for the children to use such as torn paper of various colors, cotton balls and markers.

While outside the children were observed sliding on the hill, digging in the snow with shovels and playing on the slide.

There is evidence of planned programming based on the children's artwork and learning stories posted throughout the facility.

The facility is clean and organized with plenty of materials for the children to learn and explore with.
