<p>General Comments</p> <p>Upon arrival, the QAM observed children actively engaged with a variety of materials in the learning environment, including literacy resources, art supplies, toys, and dramatic play materials.</p> <p>The QAM had not previously met the current alternate care provider and requested to review her file. The QAM recommended that each staff member maintain an individual file containing all required documentation to support QAM reviews and ensure compliance.</p> <p>The QAM also reminded the educator that the April fire drill still needs to be completed.</p> <p>Outdoor Environment Observation</p> <p>During the outdoor observation, the QAM noted that a large number of materials were available for children's use. To maintain safety and reduce clutter, the QAM recommended that Administration conduct a review of outdoor supplies to determine whether any items should be removed, replaced, or reorganized to prevent potential injuries.</p>
