31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Oct 28, 2019	
Comments: The slide on the stationary equipment is coming loose from the structure, several screws are missing. The slide on the hill has sharp, pointed edges on the wooden beam under the slide, the wooden beam is rotting and will need to be replaced soon. The sharp edges on the wooden beam were removed during the inspection. Staff have placed toys at the top of both slides to deter children from using them, however these items are easily removed by the children (was observed during the inspection) and are not adequate to prevent children from using the slides. Slide on the stationary equipment must be repaired or removed, and the gap properly secured, immediately.			

General Comments QAM conducted a follow up inspection and observed that the non compliances from the previous two inspections have now been corrected. The staff have notified the Operator to repair the slide. Operator can send an email to QAM with a photo when the slide has been corrected.
