<p><b>General Comments</b></p> <p>During my unplanned visit in the afternoon, I observed compliance with the ratio for school age groups present. The following elements are observed during my visit:</p> <ul style="list-style-type: none"> <li>- Toxic products, chemical products and cleaning supplies are locked and inaccessible to children.</li> <li>- Children's personal belongings are stored separately and clearly labelled with each child's name.</li> <li>- No medication belonging to children is currently on site. When parents bring medication, it is stored in a locked location and kept out of children's reach.</li> <li>- Minor incidents are documented on the centre's designated forms, and none require reporting using the minister's form.</li> </ul> <p>Additional observations include handwashing practices, the snack provided by parents, and the departure of several school age children.</p>
