General Comments
Inspection conducted on September 23, 2026, in the afternoon. School-age children attending under this license arrive at approximately 3:00 p.m. The required staff-to-child ratio was observed and maintained during the inspection. Upon arrival, the children went outdoors for free play. They also had their snack outdoors. The outdoor play area was inspected. To ensure that an adequate protective surface is maintained, it is important to regularly rake the protective surfacing beneath the fixed playground equipment. A follow-up may be completed by email once the staff member has successfully completed the first aid certification renewal.
