<p>General Comments</p> <p>A monitoring inspection was completed today. Children and educators were observed in the outdoor play environment, transitioning to indoors and lunch time, and during inside play.</p> <p>The indoor environments are purposefully planned with clearly defined interest centres and a variety of materials that are easily accessible for the children. There is documentation in the form of artwork, photos, learning stories, and children's portfolios that demonstrate children's interests and learning.</p> <p>Educators were observed engaged with children in play and conversation in both the indoor and outdoor play environments. Getting down to their level when they spoke, asking questions and participating as play and conversational partners.</p> <p>As discussed with operator, please forward updated parent handbook to QA Monitor when complete.</p>
