General Comments
<p>A Monitoring Inspection occurred on July 12, 2024.</p> <p>Children were observed during indoor and outdoor free play, showing keen interest in exploring birds, bringing the outdoors inside, playing in the mud kitchen, and using paint to explore color mixing. Educators have planned a range of activities for the summer, including outdoor activities and water play for hot days. They were observed using positive language and giving gentle reminders.</p> <p>Parents of children present at the center are granted entry at any time. Outdoor play occurs for at least one hour in each four-hour block of time when the majority of children are in attendance, weather permitting. Monthly emergency evacuations are completed. A clearly visible and prominent place is available to post the license, current inspection report, current monitoring reports, and orders for compliance. The daily routine is posted in each room.</p> <p>The facility had a varied supply of appropriate equipment, materials, books, and toys. Defined learning/play areas were observed, and several pieces of the children's artwork were displayed throughout the facility. Traffic areas are kept clean, and outdoor walkways are free of clutter. Drinking water is provided throughout the day. The infant outdoor play area is separate or used at different times than the other children.</p> <p>Opportunities are open for individual and group experiences. Various forms of literacy are present in the indoor environment. Portfolios are being completed with the children, and children have access to them.</p>
