General Comments

Monitoring Inspection:

The Inspector observed the children playing inside with a wide range of play materials such as: Magnetic blocks, playdough, memory card game, cars and trucks, painting, and exploring the sensory tables. The children were also observed blowing bubbles, planting, climbing, playing hind-and-seek, and investigating a baby snail in the outside play environment.

Transitions in all rooms ran smoothly. All classrooms were observed going outside. The educators were observed having positive interactions with the children. The educators were observed using positive child guidance techniques. The educators were observed supporting children by helping them problem solve and encouraging them to talk to their peers to resolve conflict. The classroom environments were calm, and all the classrooms had a wide range of open-ended materials that were open and ready for all the children to explore throughout the day.

Documentation and pictures of the children reflected the children's on-going learning interests. Educators displayed the children's learning in each classroom environment. This allows children to revisit their previous play experiences as well as values the outside play environment.

Attendance Records and Infant Toddler Daily sheets were reviewed.
