Order for Compliance	Regulation	Date to be corrected	Date corrected

<p>General Comments</p> <p>Monitoring inspection completed today. Children and educators were observed in their indoor play environment, preparing for outdoor play and in the outdoor play area.</p> <p>The indoor environments are purposefully planned with clearly defined interest centres and a variety of materials that are easily accessible for the children. There is documentation in the form of photos in the indoor play area and in the hallway that highlight activities the children have participated in over the summer. Children's artwork and documentation they created that highlights who they are, and favourite activities and interests is also posted in the classrooms.</p> <p>Outdoors, children and educators were observed engaged in play and conversation throughout the play area. Children played basketball, with soccer balls, exploring for snails, and on the play equipment.</p> <p>As discussed with operator, please forward updated parent handbook to QA Monitor when complete.</p>
