<p>General Comments</p> <p>Licensing staff arrived at the licensed facility on December 20th, 2022, to conduct a license renewal inspection.</p> <p>The younger school-aged children were engaging in play at centres that were purposely set up by the educators on the day of the inspection. Shortly after licensing staff arrived at the licensed facility, the older school-aged children arrived at the centre. The older school-aged children washed up and began to eat their snack. During the inspection, licensing staff observed the children laughing and engaging in conversations with their peers as well as their educators.</p> <p>When licensing staff first arrived at the licensed facility, the children were excited to tell licensing staff about the classroom "elf on the shelf" and his shenanigans on the day of the of the inspection.</p> <p>All educators in the classroom were very engaged with the children, at their level, throughout the inspection visit. All staff and children's files were very well organized and complete with the required information.</p> <p>Licensing staff is recommending the renewal of the facilities license.</p>
