General Comments
Monitoring inspection was conducted. Ratio was respected during the visit. While on site the Quality Assurance Monitor verified: -Posted in a visible and prominent place in the facility -Proper number of functioning washrooms -Outdoor play area and outdoor play area materials and equipment During the monitoring inspection, the Quality Assurance Monitor observed children eating a snack and playing outdoors. A discussion between the administrator and the Quality Assurance Monitor was had regarding consent forms for outings. The facility currently uses a general consent for outings that include going to a local park. The Quality Assurance Monitor recommends that consent saying that during the summer months, children will be going to the local park between Monday to Friday in the mornings and have parents sign it. The administrator agreed to making a new consent form for parents to sign and will be putting it in the child's profile.
