Comments: Deficiency is now compliant			

General Comments

A follow up inspection occurred.
The addition of curtains to Room 15 has helped with the amount of sun coming into the building in that room. There have also been additions to the outside play area: Tonka trucks, small round rope swing and materials for the outside mud kitchen have enhanced this area for the children.
The children were observed during outside play as well as inside play creating structures with blocks in Room 14. They were preparing for a walk during the follow up inspection.
Children's current learning is documented and displayed in all the learning environments on this license.
