41(1) A licensed facility at which services are provided to children who wear diapers shall have a sturdy surface that is (a) equipped with rails or safety straps.	41(1)(a)	Jul 08, 2022	
Comments: Operator was advised that she needed a higher railing or strap to be placed on the changing pad. She has it but has not put it on yet.			

<p><b>General Comments</b></p> <p>Operator is now offering services for preschool aged children. The children were playing happily at time of visit while the infant was having a nap. They moved freely between learning centres which had a variety of choices readily available to them.</p> <p>Files and documentation were easily accessible and very well organized. I was able to verify all requirements to meet regulations.</p> <p>There is sufficient pea gravel under the play structure. Please ensure that it is raked and is maintained at 30cm at all times. This includes the encroachment zone.</p> <p>Once the strap is installed on the change table, please send me a picture and I will be able to recommend the facility for licensing.</p>
