General Comments
<p>Monitoring inspection was performed on this date. Licensing staff arrived as children were engaged in outdoor play activities. The outdoor play area was well maintained, safe and clean. The children utilized the picnic table, playhouse and dump trucks during the inspection.</p> <p>The transition to indoors went smoothly as children were asked to come to the back entrance. Inside each of the children had their own personal storage space with all of their items labeled. A child who needed to be changed had extra clothes available and the operator was able to help them while also encouraging independence.</p> <p>The room has been rearranged since last inspection and now included more activity centres with kitchen, dramatic play, literacy, art and building all having defined areas. Open ended materials such as building blocks, magnetic tiles, dinosaurs and baby dolls with clothes have been added to the home. Children were engaged with play materials at all times throughout inspection.</p> <p>Handwashing and bathroom routine prior to lunchtime was observed, children who were not in the bathroom sat at the table with white board books and markers, children appeared to thoroughly enjoy this tabletop activity.</p>
